

Overhead single phase dual voltage transformer bank

Utility Network Detailed Model

Key

Utility Network feature class

- Asset Group (subtype)
- Asset Type

Electric Line

- Medium Voltage Conductor
- Overhead Three Phase

Electric Line

- Low Voltage Conductor
- Overhead Duplex or Overhead Triplex

Ar

Electric Device

- Medium Voltage Arrester
- Line Arrester

Fu

Electric Device

- Medium Voltage Fuse
- Overhead Cutout Fused Disconnect or Overhead Cutout Solid Blade

H

Tr

L

Electric Device

- Medium Voltage Transformer
- Overhead Single Phase Dual Voltage with High and Low terminals

Electric Junction

- Medium Voltage Connection Point
- Overhead Line End

Ta

Fu

At

Electric Junction

- Medium Voltage Connection Point
- Overhead Tap

Electric Junction

- Medium Voltage Riser
- Overhead Cutout

Electric Junction

- Medium Voltage Connection Point
- Attachment

Po

Structure Junction

- Electric Pole
- Pole

TA

Electric Assembly

- Medium Voltage Transformer Bank
- Overhead Single Phase Dual Voltage

Containment association

Connectivity association

Structural attachment association
